Ezra Meeker From Oregon
Drives Into City With Old
Time Prairie Schooner.

IS CROSSING CONTINENT

On Way Back From Atlantic Coast
—Is Raising Fund for Marking
Old Oregon Trail.

Traveling from Seattle to New York and return in a prairie schooner which was used in the days when the Oregon trail was blazed by the pioneer settlers of the west, Ezra Meeker, 80 years old, arrived in Rock Island this morning on his way to Seattle. A pair of oxen are the means of locomotion, and they are driven by William B. Mardon of Dailies, Ore. It was on the 1st of March, 1910, that Meeker left Seattle with his expedition for the Atlantic coast, averaging 15 miles per day. At the cities, towns and villages along the route he has delivered illustrated lectures and disposed of literature for moderate sums so that he can help augment the fund which is to be used for monuments that are being set up along the old trail.

WILL LECTURE SUNDAY.
He delivered the first of his lectures in Rock Island this morning, making his stand in Market square. He will remain until tomorrow night, when he will proceed westward. Sunday evening he will return and will deliver an illustrated lecture at Memorial Christian church.

For five years he has been traveling about the country and his unique outfit has met the gaze of millions of people, who have interested themselves in his effort. His dog, "Jim," has covered the entire distance with him. Mardon has been the driver since 1906. The trip to the east and return has been completed. Washington, D. C., was the eastern destination of the caravan on that occasion.

Pioneer Meeker proposes to have erected 700 monuments and has interested congress in behalf of the scheme. An appropriation of \$100,000 will be asked for to complete the work.

Woman on Rock Pile.
Iola, Kan., Aug. 10.—This town is in a state of excitement over the disposition of Mrs. Ella Reese, Iola's now famous woman prisoner. Despite that many are pleased that she grant her a parole, Judge Smetzler refused today to do so. If the judge has his way the woman will be compelled to don overalls and work out her sentence for misdemeanor on the town rock pile. The street commissioner refuses to put Mrs. Reese at work breaking stone. The judge indicated public sympathy was mis-

A WORD OF PRAISE.

How much a little word of praise will keep a fellow going!
How much a little compliment will keep the sunlight flowing!
A word of cheer will do it, too,
So follow man and woman,
Let's try today along the way
To be a little human!

How much a comforting remark will do to keep one steady!
How sweet the heart responds with song and always up and ready!
A word of praise, a word of cheer,
They have a mighty power
To lift the spirit out of gloom
The same as any flower!

How much a man can do when he is told he's doing finely!
How much it makes the world a world he learns to live divinely!
The highest and lowest like
The tender word and human;
And as it is with men it is
The same way with a woman!

AUTOTRUCK DRIVER FINED FOR SPEEDING

Arrest Is Made by Moline Mayor and
Police Chief Who Were Out
Motoring Themselves.

While Mayor Carlson and Chief of Police Bissant of Moline were out riding this morning in the mayor's automobile, an auto truck passed them so fast as to make the mayor's car appear to be going backward. The speedometer showed, however, that the car was traveling ahead at the rate of ten miles an hour and with that to reckon by it was not hard to figure that the auto truck was going twice that fast and thereby exceeding the speed limit by several miles per hour. The mayor and the chief sped up and after catching the truck placed the driver, Howard Bryson, under arrest. The truck belonged to the Tri-City Fruit & Commission company. Bryson was fined \$10 and costs, which was paid.

G. A. PERKINS BRANDS PANIC CHARGE FALSE

No Truth in Statement of Effort to
Ruin Certain Banks in 1907—
Continues Testimony.

Washington, Aug. 10.—George W. Perkins, director of the United States steel corporation, before the steel committee today, created a stir when he branded as false a charge that the panic of 1907 had been started to ruin certain banks. Bartlett asked Perkins whether such was not the case and the New York financier jumped to his feet, saying: "Such a charge is absolutely false. There is not a scintilla of truth in it."

The government's separation of the Standard Oil company into 33 parts, Perkins declared, was certainly a warning to corporations. He suggested that something should be done to relieve present conditions, under which, he contended, corporations could not continue to exist.

Bartlett asked Perkins if he agreed with Judge Gary as to government control of corporations.

"I agree with Gary," said Perkins, "that something of a constructive nature ought to be done with reference to supervision of our great corporations. As to Gary's opinion that there should be government regulation of prices, I don't agree. I would regard that as a very last resort and it would be much regretted if it became necessary. As between going to that limit or to continue as we are going now, I would prefer to go to that limit. Certain it is that we cannot go on as we are now."

"Is it a fact," Bartlett asked, "that the Morgan interests and other financial men in New York, by reason of their great control of money, dominate the financial situation of the whole country?"

"It is not a fact," Perkins declared, "that there was 'too much talk about monopoly of ore holdings,' and that there was no cause for undue alarm about the ore giving out."

ISN'T A SPY; ISN'T COUNT

Artillery Private Says He Was
"Bluffing" to Impress Girl.

New York, Aug. 10.—George Peter, the coast artillery private at Fort Stanwix, who is being held as a spy for the Austrian government, declared he is neither a spy nor an Austrian count, which title he is said to have claimed in pressing his suit upon Miss Clara Anita Dyer. He declared he adopted the title "Count Windisch-Grätz" to impress Miss Dyer and told her he was in a subordinate position in the American army because he was trying to find a great government secret. Later he went to Lexington, Ky., where he found that Miss Dyer's parents were opposed to his suit. Realizing his blunder, he broke the engagement. He is credited with saying: "I am sorry I made such a bluff, but it cannot come to anything serious."
